Outreach Reporting System

Quick reference guide for Outreach providers

Version 4 of the Outreach Reporting System (ORS) is a custom-built online reporting system to support outreach service providers to submit a service delivery report known as an Outcome Report (OR) previously called a Location Visit Report (LVR) following an outreach visit.

A provider's role

All health service providers delivering services under the CheckUP Outreach Programs are required to use the CheckUP Outreach Reporting system to:

- **Set visit dates** - Providers are requested to submit visit dates at least 3-6 months in advance. This supports the planning and organisation of clinics for both the provider and the facility and enables CheckUP to monitor service delivery.
- **Submit an OR** - Providers are required to submit ORs within two weeks following a visit. This will ensure prompt payment and enable CheckUP to monitor service delivery.
- **Monitor service delivery** - Providers are required to ensure they are on track to deliver the services as outlined in the Service Schedule of their contract.

Changes to service delivery

CheckUP understands that circumstances may arise which may change or impact on a provider's ability to provide a service or a visit. Providers are requested to contact their Regional Coordinator if:

- a service or visit is unable to be delivered as contracted;
- travel arrangements to the outreach location change; and/or

- changes to service needs are identified.

If advised, CheckUP maybe able to issue a variation to the provider’s contract to facilitate the change in service delivery arrangements.

Login details

The ORS is accessible using the following link <https://oms-provider.powerappsportals.com/>

Each Health Professional/Organisation requires a username and password to login to the online reporting system. *Please note:*

- Multiple people can be added as users. Each user requires a unique email address.
- If passwords are forgotten, please use the “Forgot your Password” option on the sign in page of the portal to reset password

If there are any staff changes or a need to add more users, please email

Outreach Reporting System: provider homepage

The provider homepage provides a brief introduction to the funding programs associated with the account.

A snapshot of contact information, and a pie chart of the progress of the funding program is displayed.

The top bar displays the fund admins that are connected to this provider (as they may have multiple organisations associated with the provider).

Welcome to the Outreach Service site.

CheckUP leads a strong, effective consortium in delivering outreach services to urban, rural and remote locations and high-need populations throughout Queensland. CheckUP coordinates the Outreach programs in Partnership with QAIHC. The Outreach programs are funded by the Commonwealth Department of Health. This page allows you to be able to view/edit/modify/ confirm the scheduled visits as per your contract.

Please contact CheckUP on Ph: 07 3105 8300 or email outreachservices@checkup.org.au if you have any issues with the schedule or budget, or any other queries.
